

APRIL 2024

National Heartworm Awareness Month

Heartworm Disease is Different for Cats

Dogs and cats both get heartworm disease. However, cats are affected differently. [Click here to learn about prevention and how this disease progresses in our feline patients.](#)

Kids & Pets Day

April 26th is National Kids and Pets Day! Join us in recognizing the heartwarming connections and countless smiles between our younger family members and their furry friends.

Meet Todd, CPhT

Todd joined our practice in December 2021. Starting a new chapter with us, he was able to combine his expertise in the pharmacy field with his love for animals. [Click here to learn more!](#)
