

MAY 2025

Dr. Zalewski & her 13.5 year old Lab-Husky mix Cali tackle her OA together with monthly Librela injections

Joint Effort: Tackling OA together

Osteoarthritis in dogs and cats is a progressive and irreversible condition. Luckily, an array of multimodal treatments exist! Let's take a deep dive into how pets hide the symptoms of OA and what options are available to minimize the pain while maximizing their quality of life.

[Get to the joint issue here!](#)

New Food On The Menu:

- Cognitive + Mobility dog and cat food supports brain and joint health
- Rich in antioxidants to combat brain aging
- Enriched with omega-3 fatty acids, glucosamine, and chondroitin sulfate

Ask us how to get your senior pet started on this new food option!

Lerrissa RVT, CCRP

Lerrissa heads our Aurora K9 Fit specialty services. As one of our canine rehabilitation practitioners, her skillset elevates your pet's quality of life!
